Release 1 Schedule and Functionality Overview

MM1 Functionality

October 2003

Deliver the capability to execute the claims payment processing cycle including the inbound claim (837), payment generation with AR/AP Netting, and the outbound remittance advice information (835). Prove the business flow in the Pilot Contractor setting.

Post MM1 Functionality

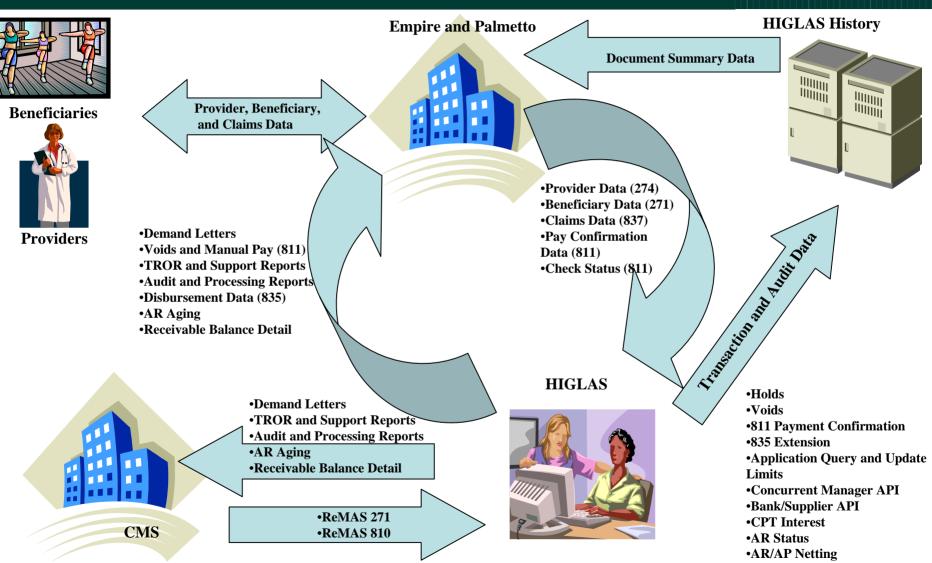

September 2004 - MM2R1

Add the remaining Release 1 functionality. Prove the volumes, flows, and scalability. system and accounting auditability, and summary/detail document level History.

May 4, 2004

Release 1 – The Vision

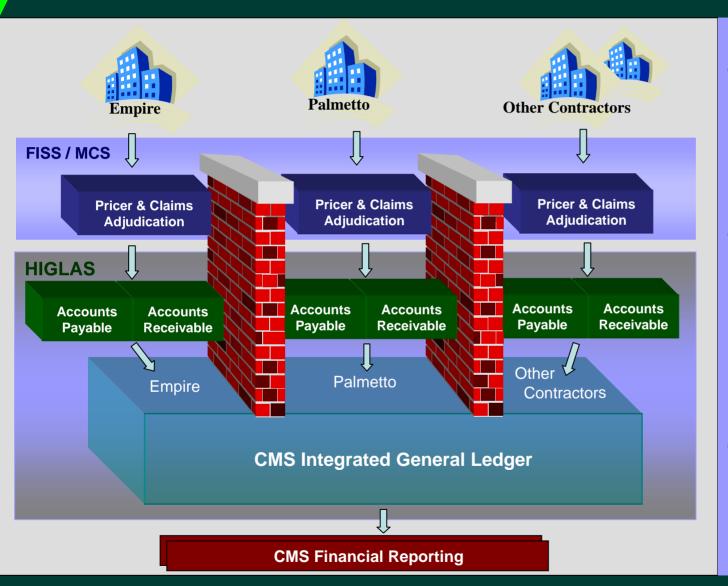

May 4, 2004

Multiple Contractors within HIGLAS

- Medicare
 Contractors are
 setup as individual
 operating units
 within HIGLAS
- Each Contractor
 has secured
 access to their own
 Accounts Payable
 and Accounts
 Receivable
 transactions
- The integrated
 General Ledger
 enables timely
 financial reporting
 across multiple
 Contractors

How we got here Job Mapping Progress to Date
